DETAILED ACTION

The following action is in response to communications filed for application 10/823,479 on April 28, 2006.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Fig. 2 is not a formal drawing. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the differential for a vehicle as claimed, and particularly including a first bearing one disposed about and in engagement with the input yoke, a second bearing cone axially spaced from the first bearing cone and in engagement with the pinion shaft, and including the remaining structure of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see Non-final Rejection, filed 11-30-2005, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 has been withdrawn. Bearings with bearing cones are only needed when a thrust force is present. It should also be pointed out that an equal and opposite thrust force is needed in order to maintain the cone positions. The bearing around the input yoke of Ries would require another bearing set with bearing cones, and the bearing of Love does not have any thrust forces to compensate for. Therefore, applicant's arguments are persuasive and the rejection has been withdrawn.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roger L. Pang whose telephone number is 571-272-7096. The examiner can normally be reached on 5:30am to 4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Charles Marmor can be reached on 571-272-7095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
